#### Description of first aid measures

**General advice** Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.

Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
Ingestion	Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.
Protecting of first-aiders	Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.

## Most important symptoms and effects, both acute and delayed

**1** Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

## Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

## 6 Accidental release measures

## Personal precautions, protective equipment and emergency procedures

2 Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.	
= Indedde personner to safe dread, heep people drag non and aprinte or spin/reak.	
3 Use personal protective equipment. Avoid breathing vapours, mist, gas or dust.	

## Environmental precautions

- **1** Prevent further leakage or spillage if safe to do so.
- 2 Discharge into the environment must be avoided.

## Methods and materials for containment and cleaning up

Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.

2 Adhered or collected material should be promptly disposed of, in accordance with appropriate laws

	and	regu	lations.	
--	-----	------	----------	--
